

DIA MEMBERSHIP
BENEFITS GUIDE

WHY DIA:

“ Not only has participation and involvement within DIA provided meaningful insights into many topics, it has also created a wider network of colleagues and friends that continues to grow. ”

— DIA Member

DIA is the global forum for knowledge exchange that fosters innovations to raise the level of health and well-being worldwide. Together, we accelerate health innovation for all.

WHY BE A DIA MEMBER?

- Connect with global influencers and uncover ways to deliver impactful change.
- Access new knowledge that keeps you on the cutting edge of healthcare conversations.
- Open doors to new pathways toward leadership growth.
- Expand your network to include global peers who support one another in real time.
- Access exclusive rates for all of DIA's global events and learning products.

DIA OVERVIEW

Together, members gain valuable professional knowledge and collaborate across disciplines

DIA is a global membership organization dedicated to bringing life science professionals together in a trusted, neutral environment. DIA membership provides you with the opportunity to learn, grow, and connect with other life science professionals. When you join DIA, you are joining thousands of leaders and innovators around the world—a dynamic community of professionals more than 10,000 strong with a passion for growth, innovation, and advancement of lifesaving medicines and technologies.

As a member of DIA, you have access to an assortment of content, resources, and professional development opportunities. DIA's unparalleled membership network is dedicated to bringing life science professionals together in a trusted, global, neutral environment. Together, we share insights and engage with peers and thought leaders on the issues of today and the possibilities for tomorrow.

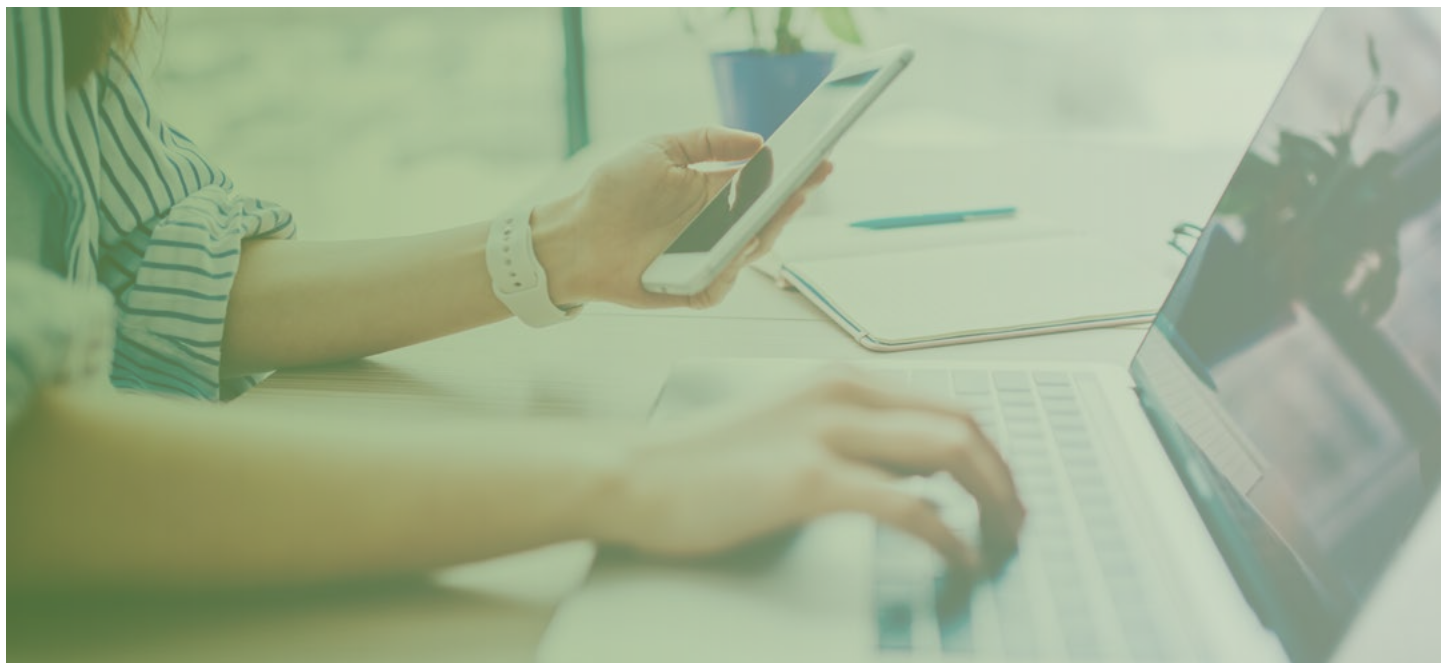

Your new membership entitles you to many benefits, including:

- Engage and network with thousands of life science professionals across the world
- Free access to continuing education opportunities with DIA's Member Learning Academy
- Special rates for all of DIA's global events and learning products
- Access to exclusive DIA content
- And much more!

If you have any questions, please contact us at Membership@DIAGlobal.org or visit diaglobal.org/en/get-involved/membership.

GET CONNECTED

Introduce yourself to a global network of life science professionals

Join the Discussion Online

DIA Communities is an online resource where members collaborate, network, and discuss important issues with life science professionals from around the world. Learn more at diaglobal.org/en/get-involved/communities.

Engage with a Multidisciplinary Global Network

DIA unites global professionals from academic research, patient groups, regulatory, R&D, clinical development, medical affairs, commercialization, health technology assessment, payer organizations, and more. Engaging with these change-makers puts you and your organization at the forefront of today's issues and leads the path into tomorrow's.

Connect with Life Science Thought Leaders

Participating as a DIA Community member raises your visibility (and the visibility of your organization) to a global audience representing the best and brightest minds working at the intersection of science, healthcare, and regulation.

STAY INFORMED

Stay ahead of the life science curve

Access to DIA Publications and Scientific Content

Research-based, community-focused, and peer-reviewed, DIA publications are an excellent place to turn for an in-depth discussion of critical issues facing the life science community.

TIRS (Therapeutic Innovation & Regulatory Science)

TIRS advances healthcare product discovery, development, regulation, and use through the publication of peer-reviewed articles and commentaries across the spectrum of converting biomedical science into practical solutions to advance human health. diaglobal.org/en/resources/publications/tirs

Global Forum

DIA's digital magazine offers expert global and regional coverage of the discovery, development, regulation, surveillance, and marketing of healthcare products, including interviews with thought leaders and topical summaries from educational events. globalforum.diaglobal.org

DIA Direct Webinars

DIA Direct webinars bring you answers to the most pressing questions and challenges you are facing in your work today. For timely and actionable insights into the most pressing and current innovation, tune in to hear what the experts have to say. diaglobal.org/en/course-listing/webinar/listing/direct

DIA Research and Think Tanks

Our Research and Think Tanks are two collaborative vehicles that provide opportunities for collaboration and the creation of new knowledge by bringing stakeholders from across the therapeutic product development lifecycle together to work collaboratively to generate strategy, crystallize ideas, and deliver impactful results quickly and support more efficient and modernized approaches to developing medicines.

DIA NOW

DIA NOW is an online tool that provides you access to continuously updated, curated content. Join the global conversations across all stakeholder groups, keeping you at the forefront of the industry. DIA NOW solves the problems of scale and timeliness by providing a one-stop library of insights across regions. diaglobal.org/en/get-involved/membership/dia-now

ACCESS PROFESSIONAL DEVELOPMENT

Take advantage of resources that support you at every stage of your career

Be the Best Version of Yourself

Being a member of DIA offers you professional growth opportunities and continuing education that you won't find anywhere else, along with the resources and connections to help your career in the life science industry flourish.
